ALFA Network - G2NC 802.11n Outdoor WISP AP/CPE Long-Range external Antenna type

from **47,93 EUR**

Item no.: 323559
shipping weight: 0.90 kg
Manufacturer: ALFA Network

Product Description

ALFA Network - G2NC 802.11n Outdoor WISP AP/CPE Long-Range external Antenna type

The G2NC is an 802.11N access point without an internal antenna. A female "N" connector is provided for connection to an external antenna. [Features](#)

- 2.4 GHz IEEE 802.11n MIMO
- Data-rate up to 150 Mbps
- High power and High sensitivity
- Wide coverage
- RF output power adjustable
- Support Gateway, Bridge and WISP mode
- Multiple ESSID
- Passive 12 V PoE

Specifications

Standard: IEEE 802.11b/g/n

Interface: RJ45 PoE LAN Port

Flash/SDRAM: 2M / 16M

Antenna: External N type Female Connector

Frequency: 2.400~2.483 GHz

Output Power: Up to 30 dBm (at) P 1 dB

Sensitivity:

-96 dBm (at) 802.11b

-91 dBm (at) 802.11g

-91 dBm (at) 802.11n

Security:

64/128 bit WEP

WPA (TKIP with IEEE 802.1x)

WPA2 (AES with IEEE 802.1x)

WPA Mixed

802.1x authentication

Material: Plastic UV protect

Operation Mode:

Gateway

Bridge

Wireless ISP

Wireless Mode:

AP

Client

WDS

AP+WDS

Data Rate:

802.11b: 11, 5.5, 2, 1 Mbps

802.11g: 54, 48, 36, 24, 18, 12, 9 & 6 Mbps

802.11n: up to 150 Mbps

Power requirement: 12 V Passive PoE

Mounting: Wall & Fixed Pole Mount

Option Accessory: Adjust angle Pole Mount kits
